Tiered-Rate Accounts:

Interest is calculated on the average daily balance at the rate in effect for the balance tier.

CDs, IRA CDs & HSA CDs:

Checks you deposit into your account begin to earn interest on the business day you deposit them. Interest is compounded and paid at maturity or annually. The interest rate will be paid until the maturity date of your CD. If you withdraw interest during the term, earnings will be reduced. You may redeem automatically renewable CDs without penalty and make additional deposits only during the 10-day grace period following maturity. There is a substantial penalty for early withdrawal.

Interest Checking, Money Market, Premium Money Market, Savings, Minor Savings, HSA Checking and IRA Savings:

Checks you deposit into your account begin to earn interest on the business day we receive credit for them. Interest is compounded and paid monthly. Your interest rate and Annual Percentage Yield may change. At our discretion, we may change the interest rate on your account at any time.

*APY is Annual Percentage Yield. APY is based on a 365 day year and assumes that interest remains in the account until maturity.

^ Not available for IRA's or HSA's.
